### 8.2.1 AM5

Article 238.2.2:

This is a competition against the clock, but in the event of equality of penalties for first place, there will be one jump-off against the clock. Other athletes are placed according to their penalties and time in the first round.

### 8.2.3 Two-Phase

Article 274.5.3 This competition comprises two phases run without interruption, each at an identical or different speed, the finishing line for the first phase being identical with the starting line for the second phase.

The first phase is a course of 7 to 9 obstacles with or without combinations (Table A against the clock). The second phase takes place over 4 to 6 obstacles, which may include one combination (Table A against the clock).

Athletes penalized in the first phase are halted by ringing the bell after they have jumped the last obstacle or when the time allowed for the first phase has been exceeded, after crossing the finishing line of the first phase. They must stop after crossing the first finishing line. Placing is according to the penalties and time in the second phase and, if necessary, to the penalties and time in the first phase. Athletes stopped after the first phase may only be placed after athletes who have taken part in both phases. In the event of equality for first place, the tied athletes will be placed equal first.

It is a requirement **BEFORE** nominating that all riders wishing to compete in jumping classes are registered with the IQ office. Any nominations received without the appropriate registration will not be accepted and no discussion will be entered into. For more information regarding registration please contact the IQ office.
