

🌟 BIG NEWS from VK Equestrian! 🌟
New Flatwork Levels + Autumn Series Incoming 🍁

Functional Flatwork

We're beyond excited to share something very special with our VK Equestrian community 🤍

After months of planning and refining, we're proud to introduce our brand-new Skill-Based & Professional Flatwork Level System!

This new structure is designed to support horses and riders on their training journey — keeping things clear, progressive, and welcoming, while still offering plenty of challenge for those ready to step things up.

🌟 Flatwork with purpose.

🌟 Training with heart.

★ Our New Flatwork Levels ★

Each level reflects real-world riding skills — not dressage jargon — making our tests accessible to all riders, all breeds, and all disciplines.

🐾 Foundation Level

Walk–trot only. Confidence, rhythm, steering, and calm communication.

🐾 Development Level

Introducing canter. Balance, forward intention, and clearer transitions.

🐾 Progressive Level

Lateral work begins. Lengthened strides, suppleness, and improved accuracy.

🐾 Performance Level

Collection introduced. Shoulder-in, travers, medium work, and stronger engagement.

We can't wait to see you and your horses enjoying this new system as part of our Autumn Series 🍁

Round 1 of the VK Equestrian Functional Flatwork Autumn Competition has gone live on [Nominate.com.au](https://nominate.com.au) (search for VK Equestrian). Tests are available on [Nominate.com.au](https://nominate.com.au) but not yet attached to the class.
